

# South Central High Performance Rail Corridor

## Passenger and Freight Services

- ~ This corridor is intended for higher speed freight and future passenger rail services
- ~ Upgrades to the corridor may include new signalization, double track, and improved road/rail crossings
- ~ Only FRA designated corridor nationwide without identified funding for studies and implementation
- ~ There is need for coordination between all stakeholders starting with the establishment of a committee and coordination meetings
- ~ Develop entity or committee to apply for funds and conduct studies
